2.4GHz 108/54Mbps SUPER-G WIRELESS

**2.4GHz 108 Mbps Wireless Cable/DSL Broadband Router**

**MODEL CODE**
SMCWR14T-G

**FEATURES**
- Atheros Chipset
- Share your Cable/DSL connection
- 3-Click Installation Wizard
- 802.11g / 802.11b compliant High Speed Wireless LAN connection
- 4-port 10/100 Mbps Auto MDI-MDX switch and one detachable antenna
- Stateful Packet Inspection (SPI) Firewall
- Access Control and URL Blocking
- 3 Year Warranty

**2.4GHz 108 Mbps 3in1 Wireless Access Point/Bridge**

**MODEL CODE**
SMCWEBT-G

**FEATURES**
- Atheros Chipset
- The SMCWEBT-G wireless access point transfers data at rates 15x faster than traditional 802.11b. The new SMC’s 108Mbps access point allows users to enable multiple video streams at the same time.
- WEP, WPA wireless security standards enhance wireless security allowing users to secure their WLAN to prevent unauthorized access.
- Wireless distribution system (WDS) for bridge and repeater mode expands an existing wireless network by adding coverage space that is not adjacent to the existing space, providing great flexibility.
- Plug and play installation. With virtually no configuration required the access-point only needs to plug in power and network connection to establish a wireless network.
- 3 Year Warranty

**2.4GHz 108 Mbps Wireless USB Adapter**

**MODEL CODE**
SMCWUSBT-G

**FEATURES**
- Atheros Chipset
- Simple and easy installation on Windows 98SE/ME/2000/XP. Plug-and-play, no configuration needed
- USB 2.0 interface with 480 Mbps high data rate performance - up to 40 times faster than USB v1.0 and 1.1
- Compact, easy-to-carry form factor
- Provides high speed wireless communication at up to 108 Mbps; 802.11g compliance allows seamless interoperation among multiple vendors
- Advanced security through 64-bit/128-bit WEP encryption, W-Fi Protected Access (WPA), and the new WPA2 to protect your information and to ensure secure data transmissions
- Ability to scan for all available Access Points on the wireless network and create multiple profiles, making it easy to use in the home, office or on the road
- 3 Year Warranty

**2.4GHz 108 Mbps Wireless PCI Adapter**

**MODEL CODE**
SMCWPCIT-G

**FEATURES**
- Atheros Chipset
- High speed for wireless LAN connection, up to 108Mbps data rate
- Extended Range feature supported
- Backward compatible to the existing IEEE 802.11b WLAN infrastructure
- User-friendly utility to configure SSID, security setup and site survey
- Wireless data encryption with 64-bit, 128-bit encryption for security
- External directional patch antenna
- 3 Year Warranty

**2.4GHz 108 Mbps Wireless Cardbus Adapter**

**MODEL CODE**
SMCWCBT-G

**FEATURES**
- Atheros Chipset
- Super G mode, offering up to 108Mbps
- Extended Range feature supported
- Backward compatible to the existing IEEE 802.11b WLAN infrastructure
- A user-friendly utility to configure SSID, security setup and site survey
- Wireless data encryption with 64-bit, 128-bit encryption for security
- 3 Year Warranty
