**EDIMAX 11/54Mbps WIRELESS/MIMO WIRELESS**

### 4 Port LAN Wireless Access Point

**MODEL CODE**
WL7209APG

**FEATURES**
- Complies with IEEE 802.11g/b 2.4GHz specification
- Supports 2.400-2.4835 GHz frequency band, 1-14 channels
- High data rate up to 54Mbps network speed Auto rate fallback in case of obstacles or interferences
- Supports point-to-point and point-to-multipoint bridge function
- Supports WDS (Wireless Distributed System) repeater mode and roaming link integrity
- Supports authentication for wireless connectivity based on ESSID
- Provides 64/128/256 bit key length WEP data encryption
- Supports WPA security enhanced function (pre-shared key, 802.1x, TKIP …)
- Provides MAC access control and hidden SSID function
- Provides DHCP server and RADIUS server with EAP-MD5 authentication function
- Supports Web-based configuration, Firmware upgradeable via Web
- Provides RP-SMA detachable antenna that can be easily replaced by a high-gain outdoor antenna
- 1 Year Warranty

### MIMO Wireless Access Point

**MODEL CODE**
BR-6216MG

**FEATURES**
- MIMO (multiple-input multipoint output) technology enables connection to wireless networks at greater distances. MIMO solutions have two antennas for signal reception and one antenna for high power signal transmission. Connection distance is enhanced and “dead spots” in the network will be reduced.

### MIMO PCI Client Adapter

**MODEL CODE**
WL7628IG

**FEATURES**
- Complies with IEEE 802.11b and IEEE 802.11g products.
- Supports MIMO XRTM, Packet-OverDRIVE™ (Turbo Mode) technology
- Increased coverage, less dead spaces and higher throughput with MIMO technology.
- Provides WMM (IEEE 802.11e CoS standard), enhance multi-media support.
- Supports 64/128-bit WEP, WPA (TKIP with IEEE 802.1x), WPA2 (AES with IEEE 802.1x) functions for high level of security.
- Supports CCX 2.0 (Cisco Compatible Extensions) for radio monitoring and fast roaming.
- Supports Windows 98SE/Me/2000/XP.
- 1 Year Warranty

### MIMO PCMCIA Client Adapter

**MODEL CODE**
WL7608PG

**FEATURES**
- Complies with IEEE 802.11b and IEEE 802.11g products.
- Supports MIMO XRTM, Packet-OverDRIVE™ (Turbo Mode) technology
- Increased coverage, less dead spaces and higher throughput with MIMO technology.
- Provides WMM (IEEE 802.11e CoS standard), enhance multi-media support.
- Supports 64/128-bit WEP, WPA (TKIP with IEEE 802.1x), WPA2 (AES with IEEE 802.1x) functions for high level of security.
- Supports CCX 2.0 (Cisco Compatible Extensions) for the radio monitoring and fast roaming.
- Supports Windows 98SE/Me/2000/XP.
- 1 Year Warranty
