The FH-600 Firewire hub has six IEEE1394 ports that allow users to seamlessly add peripherals to their computers without the need to power down. It supports data transfer rates of 100, 200, and 400Mbps and automatically switches to the highest speed supported by the connected peripheral.

**FEATURES**
- IEEE 1394, IEEE 1394a compliant with 100, 200, 400 Mbps data transfer rate
- Automatically uses the highest speed the peripheral supports
- Supports hot plugging
- DC input terminal for optional external power supply
- 6 IEEE 1394 Ports for more convenient adding and removing of devices
- 1 Year Warranty

**Firewire IEEE1394 Add-on-Card with Editing Software**

The AOC-1394MP Digital Home Video Laboratory is a complete home video editing system that takes advantage of the speed, reliability and convenience of IEEE1394 (Firewire) bus technology to turn a multimedia PC into a mini video production studio. Users can download videos from a digital camcorder to the PC, then use the video editing software to produce special effects, create subtle themes and modes, humorous sequences, cut embarrassing mistakes or add music and narration.

**FEATURES**
- Includes Ulead Video Studio version 5 Editing software, digital camcorder drivers and a 1.8M 6P to 4P firewire cable
- Supports Windows 98/98SE/2000/Me/XP
- 400 Mbps data throughput
- Fully IEEE 1394 compliant
- Plug-n-Play compatible
- Hot pluggable - connect and remove devices without restarting the computer
- Chain up to 63 devices
- Three downstream ports
- Easy to install - no jumpers, switches or terminators required
- 1 Year Warranty

**Dual Port Firewire PCMCIA Card**

**FEATURES**
- Adds Two Firewire ports to any notebook computer
- Compatible with any Firewire device
- Windows 98/2000/Me/XP compatible
- IEEE 1394, IEEE 1394a compliant
- 100, 200, 400 Mbps data transfer rate, automatically uses the highest speed the peripheral supports
- Supports hot plugging
- 1 Year Warranty
