Unmanaged Fast Ethernet Switch

Fast Ethernet 16/24-port

10/100Mbps Standalone Unmanaged Layer 2 Switch

FEATURES
- 3.2 and 4.8 Gbps aggregate bandwidth
- Filtering and forwarding at full wire speed on all ports
- Automatic address learning with up to 4K MAC address table
- Store-and-forward architecture prevents propagation of bad packets
- Half and full duplex flow control prevents packet loss under heavy loading
- Rackmountable
- Internal power supply
- Warranty 3 Years

SPECIFICATIONS
- Fast Ethernet Ports: 16 x 10/100Mbps (SMCEZ1016DT) 24 x 10/100Mbps (SMCEZ1024DT)
- MAC Address Table: 4K
- Buffer Memory: 128 Kb
- Standard 19" Rackmountable
- Power Supply: Internal 100-240VAC, 50-60Hz
- Certification: FCC Class A, CE Mark, C-Tick

Designed for small to medium size businesses, these affordable switches are flexible enough to be placed on the desktop as well as mounted on a standard 19-inch rack in the computer room. Easy to install and highly reliable, they are ideal for businesses looking for quick and simple network creation.

Fast Ethernet 16/24/32 Ports

10/100Mbps Standalone Unmanaged Layer 2 Switch

FEATURES
- Complies with IEEE802.3 Ethernet, IEEE802.3u Fast Ethernet
- Store-and-Forward architecture and full wire speed filtering and forwarding rate
- All UTP Ports support Auto-MDI/MDI-X
- All UTP Ports support full/half duplex and auto-negotiation
- Supports flow control: back-pressure for half-duplex, IEEE802.3x for full-duplex mode
- Extensive front-panel diagnostic LEDs
- Internal universal switching power supply
- Warranty 5 years

SPECIFICATIONS
- Fast Ethernet Ports: 16 x 10/100Mbps (SW3116R) 24 x 10/100Mbps (SW3124R) 32 x 10/100Mbps (SW3132R)
- MAC Address: 8K
- Buffer Memory: 512 KBytes (SW3116R)
  768 KBytes (SW3124R)
  1 MBytes (SW3132R)
- Power Supply: Internal 100-240VAC, 50-60Hz
- Standard 19" Rackmountable
- Dimensions: 45(H) x 445(W) x 170(D) mm
- Weight: 2.4Kg
- Certification: FCC Class A, CE Mark, C-Tick

Designed for small to medium size businesses, these affordable switches are flexible enough to be placed on the desktop as well as mounted on a standard 19-inch rack in the computer room. Easy to install and highly reliable, they are ideal for businesses looking for quick and simple network creation.
