Features:

33 MHz operation.
Supports PCI 2X mode.
Supports PCI native modes.
Compliant with PCI Specification revision 2.2.

Serial ATA Interface

Complies with Serial ATA Specification revision 1.0.
Dual channel master mode PCI supporting up to two SATA devices. The SATA drive transfer is capable up to 150MB/s per channel.

Ultra ATA-133/IDE interface

Supports Ultra DMA Mode Transfers up to Mode ATA/ATAPI6 Timing (100/133 MB/s).
Single channel master mode hard driver larger than 137 GB.
Supports PIO Modes up to Mode 4 Timings, and Multiword DMA Mode 0,1,2 with Independent Timing of up to 2 drives.

Supports up to 33 MHz PCI interface clock.

0.22 um Lower power CMOS process
2.5 V core, 3.3 V I/O, 5V tolerant input
128-pin LQFP Package

Windows 98SE/ME/NT/2K/XP/VISTA
