blueMate.4 is highly compact universal Bluetooth™ USB adapter. As a result of its built-in CSR 4.0 chip it supports Bluetooth™ 4.0 low energy and Bluetooth™ 3.0 with Class 1 reduced power consumption for longer battery life in devices like laptop mice. The USB 2.0 interface makes fast data synchronization, with your computer and phone, transferring files between computers, sending files to printers or fax machines. For added convenience, it works at a range of up to 50 meters (160 ft.), with the ability to pair with up to 17 devices simultaneously.
