Energize-25, a 1000A Portable Jump Starter is the most compact automobile jump starter in its class, yet possesses everything needed to jump start any vehicle and charge all 5V USB devices such as smartphones and tablets. It has a great-looking modern design. It also features the latest "Smart Clamps" offering protection from potential reverse polarity connections, short-circuit connections as well as SOC detection of your battery. An all in one product to jump start any vehicle, be it a car or truck.

Specifications:
- Capacity: 25200mAh
- Battery Type: Lithium-ion
- Input: DC 15V/1A
- Output: DC 12V/24V for Car DC5V/1A for USB
- 12V Start Current: 500A
- 12V Peak Current: 1000A
- 24V Start Current: 300A
- 24V Peak Current: 600A
- Charging Time: ~8 hours

Titles for E-Commerce:
- 1000A Multi-functional Auto Car Jump Starter 25200mAh Emergency Power Bank Charger With Smart Clamps
- 1000A Peak 25200mAh Portable Car Jump Starter Smart Power Bank with Reverse polarity protection, Battery state detection, LED Flash Light for small and large sized cars and trucks

COMPATIBILITY
- All Vehicles and USB Chargeable Devices

PACKAGING CONTENT
- Car Charger
- 2-in-1 USB Cable
- Smart Clamps
- Reverse Polarity Protection
- LED Flashlight
- No Spark Ignition

CERTIFICATION
- RoHS
- CE
- FCC
- IC
- CSA

Safeguards
- Automatic Voltage Regulation
- Reverse Polarity Protection
- State of Charge Detection
- Smart Clamps
- 4 Beam Mode LED Flashlight
- 12/24 Output Converter
- Buzzer Alert
- Reverse Polarity
- Power Button
- USB Charging Port
- Power Input Port
- Charging Input Port
- Battery Level Indicator

Energize-25 is a powerful Jump Starter for 12V and 24V Vehicles. It features automatic voltage regulation, reverse polarity protection, state of charge detection, powerful LED flashlight, and no spark ignition. The package includes smart clamps, 12/24 output converter, and reverse polarity protection. The charger is RoHS, CE, FCC, IC, and CSA certified.

Specifications:
- 25200mAh Power Bank
- Automatic Voltage Regulation
- Reverse Polarity Protection
- State of Charge Detection
- Safety Guaranteed
- 1000A Peak Current
- 25200mAh Power Bank
- Smart Clamps
- 4 Beam Mode LED Flashlight
- 12/24 Output Converter
- Buzzer Alert
- Reverse Polarity Protection
- Power Button
- USB Charging Port
- Charging Input Port
- Battery Level Indicator

Energize-25 is an Ultra-Portable Smartphones & Tablet Charging Automatic Voltage Regulation Safety Guaranteed State of Charge Detection Reverse Polarity Protection. It is a 1000A Universal Jump Starter With Smart Clamps and Reverse Polarity Protection 12/24Volt | Over Discharge Protection | State of Charge Detection | Super LED Torch. Energize-25 is a 1000A Portable Jump Starter that powers any vehicle and charges all 5V USB devices such as smartphones and tablets. It has a modern design and features the latest "Smart Clamps" for protection against reverse polarity connections, short-circuit connections, and battery state detection. It is a one-stop solution forjump starting any vehicle, be it a car or truck.
