HDMI-11CA
HDMI Repeater with Audio In

Operation Manual
Safety Precautions

Please read all instructions before attempting to unpack or install or operate this equipment, and before connecting the power supply. Please keep the following in mind as you unpack and install this equipment:

- Always follow basic safety precautions to reduce the risk of fire, electrical shock and injury to persons.
- To prevent fire or shock hazard, do not expose the unit to rain, moisture or install this product near water.
- Never spill liquid of any kind on or into this product.
- Never push an object of any kind into this product through module openings or empty slots, as you may damage parts.
- Do not attach the power supply cabling to building surfaces.
- Do not allow anything to rest on the power cabling or allow it to be abused by persons walking on it.
- To protect the equipment from overheating, do not block the slots and openings in the module housing that provide ventilation.

1. Introduction
The HDMI repeater with audio in is a device that guarantees your HDMI source display with alternatives selection of audio combination display. The device has optical and R/L audio input including the original HDMI audio signal for user’s favorite selection. While displaying the HDMI image, users can now enjoy the display with different type of music. The HDMI repeater with audio in is a brilliant tool for your HDMI entertainment enjoyment.

2. Applications
• Game entertainment
• Product image display
• Demonstration display
• Showroom display

3. Package Contents
• HDMI Repeater with Audio In
• 5V / 1A Power Adaptor
• Operation Manual

4. System Requirements
Input source equipment such as PC or DVD player with connection cables and output HD monitor or LCD TV with HDMI cable.

5. Features
• Compliant with HDMI 1.3, HDCP 1.2 and DVI 1.0
• Supports HDMI Sample Rates up to 192 kHz
• Supports Optical Sample Rate up to 48 kHz
• Supports TMDS clock frequency rate 225MHz
• Supports high-bit-rate (HBR) audio
• HDMI cable distance test with 1080p 8/12bit resolution, the input & output can run up to 10 meters
• Low power consumption
• 24 bit resolution
