SAFETY PRECAUTIONS

Please read all instructions before attempting to unpack, install or operate this equipment and before connecting the power supply.

Please keep the following in mind as you unpack and install this equipment:

• Always follow basic safety precautions to reduce the risk of fire, electrical shock and injury to persons.
• To prevent fire or shock hazard, do not expose the unit to rain, moisture or install this product near water.
• Never spill liquid of any kind on or into this product.
• Never push an object of any kind into this product through any openings or empty slots in the unit, as you may damage parts inside the unit.
• Do not attach the power supply cabling to building surfaces.
• Use only the supplied power supply unit (PSU). Do not use the PSU if it is damaged.
• Do not allow anything to rest on the power cabling or allow any weight to be placed upon it or any person walk on it.
• To protect the unit from overheating, do not block any vents or openings in the unit housing that provide ventilation and allow for sufficient space for air to circulate around the unit.

1. INTRODUCTION
The HDMI with RS-232 over Single CAT5e/CAT6 transmitter and receiver set can send uncompressed audio/video over a single run of CAT5e/6 cable up to 100m with POE feature and the added benefit of control through the built-in RS-232 and IR ports and a bi-directional LAN connection.

2. APPLICATIONS
• Household entertainment sharing and control
• Lecture room display and control
• Showroom display and control
• Meeting room presentation and control
• Classroom display and control

3. PACKAGE CONTENTS
• 1× HDMI to CAT5e/6 (with LAN/IR/RS-232) Transmitter
• 1× CAT5e/6 to HDMI (with LAN/IR/RS-232) Receiver
• 1× IR Blaster
• 1× IR Receiver
• 1× 24V/1.25A DC Power Adaptor
• Operation Manual

4. SYSTEM REQUIREMENTS
Input HDMI source equipment such as DVD/Blu-ray player and HDMI equipped output display (TV or monitor).
5. FEATURES

• HDMI 1.4 with 3D, 4k×2k support, HDCP & DVI Compliant
• Supports CEC bypass
• Simultaneous transmission of uncompressed data over a single 100 m/328 ft CAT6/CAT5e cable
• Uncompressed video 1080p, 60 Hz, 36-bit
• Audio support up to 7.1CH & Dolby TrueHD, DTS-HD
• 5Play™ convergence: HDMI, LAN, POE & Control (IR & RS232)
• Installation Friendly

Note:

1. This system was tested with CAT-6E/23AWG cables, results may vary with cables of a different specification.
2. The POE function is designed to support the same family type’s receiver devices, it is not designed to power other devices.
3. The POE function is designed to support the same family type of device (here it means receiver) only. It is not design to power other non-family type of devices.
6. OPERATION CONTROLS AND FUNCTIONS

6.1 Transmitter Front and Rear Panels

1 HDMI In
   Connect to HDMI source equipment such as a DVD or Blu-ray player.

2 LAN
   Connect to an internet or network connection.

3 RS-232 In
   Connect to a PC or laptop with D-Sub 9 pin male cable for the transmission of RS-232 commands.

4 Power LED
   This blue LED will illuminate when the device is connected to a power supply.

5 DC 24V
   Plug the 24 V DC power supply into the unit and connect the adaptor to an AC outlet.

6 IR 1 Blaster
   Connect to the supplied IR blaster cable for IR signal transmission. Place the IR blaster in direct line-of-sight of the equipment to be controlled.

7 IR 2 Extender
   Connect to the supplied IR receiver cables for IR signal reception. Ensure that remote being used is within the direct line-of-sight of the IR extender.
8 **Link LED**
The yellow LED will illuminate when both the input and output signals are connected.

9 **CAT5e/6 Out**
Connect to the receiver unit with a Single CAT5e/6 cable for transmission of all data signals.
### 6.2 Receiver Front and Rear Panels

#### Front

1. **HDMI Out**
   - Connect to a HDMI equipped TV/monitor for display of the HDMI input source signal.

2. **LAN**
   - Connect to a PC or Laptop to the Internet or network connection.

3. **RS-232 Out**
   - Connect to the device that is to be controlled (via D-Sub 9 pin female cable) by RS-232 commands.

4. **Power LED**
   - This blue LED will illuminate when the device is connected to a power supply.

5. **IR 2 Blaster**
   - Connect to the supplied IR blaster cable for IR signal transmission. Place the IR blaster in direct line of sight of the equipment to be controlled.

6. **IR 1 Extender**
   - Connect to the supplied IR receiver cables for IR signal reception. Ensure that remote being used is within the direct line-of-sight of the IR extender.

7. **Link LED**
   - The yellow LED will illuminate when both the input and output signals are connected.

8. **CAT5e/6 In**
   - Connect to the transmitter unit with a Single CAT5e/6 cable for transmission of all data signals.

---

#### Rear

1. **RS-232 Out**
2. **LAN**
3. **HDMI Out**
4. **Power LED**
5. **IR 2 Blaster**
6. **IR 1 Extender**
7. **Link LED**
8. **CAT5e/6 In**
