LIGHTWEIGHT PREMIUM HEADPHONE WITH MICROPHONE

FEATURES
- Aluminum Headband
- 30mm Neodymium Driver
- Luster Appearance
- Open Type Design

DESIGNED FOR COMFORT
The HS102BK headband is designed for comfort, the open type design means minimal pressure is exerted on your ears. The 30mm Neodymium driver generates powerful volume despite its tiny size. The smooth finish shines with a lustre like appearance, energizing your conversation online.

HIGH QUALITY DESIGN
The HS102 has been designed as a high quality stereo headset for use with an iPhone. Its functions include Call Answer, Music Control etc...

The integrated microphone has the iPhone functions controller as part of the cable.

The headset has been designed to lay flat on the chest which adds to its comfort and usability.

STYLISH DESIGN
With an iPhone compatible 3.5mm Gold-plated plug, the HS102 is the perfect headset for your iPhone. The attractive finish of the headset and the high quality sound it produces, enable you to enjoy your music wherever you are.
