Introduction

Sonic Isolation Earbuds use silicon sleeves to block out external ambient noise and create the best possible listening conditions while the UltraBass diaphragm creates deep, rich bass frequencies not commonly found in other earbuds.

Features

- Sound Isolation Design - ultra soft silicon sleeves fit comfortably but snugly inside your ear to shut out external ambient noise
- UltraBass Diaphragm - Creates responsive, powerful, and clean bass frequencies
- Slim-line Connector - slim design plug compatible with all portable electronics including iPhone™
