USB + PS/2 KVM SWITCHES - 4 PORT

The KAG104 and KAG104D KVM switches intelligently convert PS/2 signals to USB format allowing 4 computers to be managed with mixed USB and PS/2 peripherals by a standard PS/2 keyboard, PS/2 mouse and VGA monitor. Computers are selected by hot-key commands or by front panel push buttons. The KAG104D features an OSD menu for server naming and selection.
