INTERNAL PCI-BUS VOICE/DATA/FAX 56K MODEM

The MODEM-INT has drivers for all major Windows operating systems. Each card supports line speeds up to 56Kbps. For slower connections, this modem will automatically reset itself to transmit at the fastest possible speed. In the voice/audio mode, this card supports PCM coding and decoding at an 8Hz sample rate. Also supports a Full-Duplex speaker phone feature with acoustic and line echo cancellation.
