Data Centre Configuration of ST Series 19" Network Server Cabinets

MODEL CODE

TYPE

DCST6047-8 Data Centre Cluster of 8 x 47RU 600x1000mm cabinets

The ST series data centre cabinet solution incorporates interconnecting side and roof accessories required to create a hot aisle /cold aisle configuration to conserve energy and lower cooling costs by managing air flow. In its simplest form, hot aisle/cold aisle data center design involves lining up server racks in alternating rows with cold air intakes facing one way and hot air exhausts facing the other.

The Data Centre Cluster kits include all accessories to create the hot and cold aisle configuration, but excludes the air conditioning hardware.

ACCESSORIES INCLUDED

- Double opening side sliding doors
- Aisle & top roof panels
- Roof mount cable management accessories
