## ADSL & BROADBAND ROUTERS / ACCESS CONTROLLER

### ADSL2+ Modem/Router

<table>
<thead>
<tr>
<th>MODEL CODE</th>
<th>TYPE</th>
</tr>
</thead>
<tbody>
<tr>
<td>SMC7904BRA2</td>
<td>4 x LAN</td>
</tr>
<tr>
<td>SMC7904WRA2</td>
<td>4 x LAN with 802.11g Wireless</td>
</tr>
<tr>
<td>SMC7904WBRA-N</td>
<td>4 x LAN with 802.11n Wireless</td>
</tr>
</tbody>
</table>

**FEATURES**
- With ADSL2+ technology, the SMC Barricade ADSL2+ provides enhanced data transmission speed, up to 24Mbps for downstream and 1Mbps for upstream.
- UPnP NAT Traversal allows Multi-player gaming, Peer-to-peer connections and Real-time communications.
- Built-in DDNS Client enable SOHO users to reduce expenses by hosting web sites or ftp server without paying for static IP address.
- SNMP support allows multiple branch offices or location to be managed centrally or remotely.
- Easily connect to Internet in minutes using setup wizard to select your preferred country and ISP service.
- SPI firewall provides extensive advance protection of your network from intruders.
- 3 Year Warranty.

### Barricade Cable/DSL Router

<table>
<thead>
<tr>
<th>MODEL CODE</th>
<th>TYPE</th>
</tr>
</thead>
<tbody>
<tr>
<td>SMC7004VBR</td>
<td>Barricade Cable/DSL Broadband Router with SPI Firewall</td>
</tr>
</tbody>
</table>

**FEATURES**
- Share your cable or DSL connection with up to 253 users.
- 3-click Installation Wizard.
- Advanced Stateful Packet Inspection (SPI) firewall protection.
- Supports a wide variety of Internet applications.
- 4-port 10/100Mbps switch versatility plus one 10Mbps for WAN connection.
- URL blocking to limit access to certain websites.
- Hacker prevention and logging capability prevents common hacker attacks.
- 3 Year Warranty.

### Broadband Router

<table>
<thead>
<tr>
<th>MODEL CODE</th>
<th>TYPE</th>
</tr>
</thead>
<tbody>
<tr>
<td>BR-6104K</td>
<td>Broadband Router, 1 x WAN + 4 x Switch</td>
</tr>
</tbody>
</table>

**FEATURES**
- NAT/NAPT IP Sharing.
- SPI Anti-DoS Firewall.
- Virtual Server.
- Virtual DMZ.
- Supports UPnP.
- Supports DDNS (DynDNS/TZO).
- Supports Special Applications (Port Triggers).
- VPN Pass Through (IPSec/PPTP/L2TP).
- Obtains WAN IP by PPPoE/Static IP/PPTP/DHCP/L2TP.
- DHCP Server.
- Web User Interface (Remote Configuration).
- System Status (Port Connectivity, DHCP MAC/IP Mapping).
- Security Log.
- Traffic Statistics.
- Firmware Upgradable.
- 2 Year Warranty.

### Network Access Controller

<table>
<thead>
<tr>
<th>MODEL CODE</th>
<th>TYPE</th>
</tr>
</thead>
<tbody>
<tr>
<td>NAC-M1000</td>
<td>50 Simultaneous User</td>
</tr>
<tr>
<td>NAC-M3000</td>
<td>120 Simultaneous User</td>
</tr>
</tbody>
</table>

**FEATURES**
- VPN secured network technology.
- Single login account roaming among various APs.
- Centralized AP management.
- Role-based and policy-based access control.
- Multiple authentication methods.
- Fail-over on dual WAN ports.
- Per-user bandwidth management.
- Record of per-user network traffic history.
- On-demand, instant guest account management.
- 2 Year Warranty.
