Model PT0777S

6 Outlet Powerboard with Surge & Overload Protection and 3x Spaced Sockets

6 way powerboard suited to domestic and commercial applications with 3 sockets that are spaced. Spaced sockets allow bulky power packs, transformers or cell phone chargers to be used. This model PT0777S is a high rated unit offering surge and overload protection to your appliances. Avoid damage that can be caused by unpredictable power surges. Protect valuable audio, video, entertainment and computer equipment. Extra long power lead, right angle power plug to fit easily and neatly behind furniture. Protection from both EMI and RFI (Electromagnetic and Radio interference) as an added feature.
