ADSL Barricade™ g
SMC7804WBRA

54 Mbps Wireless 4-port Router with built-in ADSL Modem

The ADSL Barricade™ g, SMC7804WBRA, is an all-in-one solution for connecting and sharing your ADSL Broadband connection in your home or office. This multifunctional Broadband router combines a 2.4GHz 54Mbps 802.11g Wireless Access Point, 4 10/100Mbps RJ45 ports for connection to a PC or Network and an RJ11 WAN port that connects to your ADSL line. The four 10/100Mbps RJ45 ports can be connected to a network hub or switch to expand the number of people sharing your ADSL connection in your home or your office.

The SMC7804WBRA also has a built in DHCP server to make implementing and expanding your network simple and easy. This device supports Full-rate G.dmt, which gives you download speeds of 8Mbps and upload speeds of 640Kbps. Its NAT based Firewall security provides a high level of security for your network. This new device is a complete ADSL solution for PC or MAC users. Graphical user interface software is provided for easy installation, configuration, and management. The LED display panel on the front of the product shows at-a-glance the Ethernet activity, ADSL status and Power. All SMC products are backed by a limited lifetime warranty (5 years) and Free technical support.

Features and Benefits

High Speed Internet Access
- The SMC Wireless ADSL Barricade provides unrivaled asymmetric high-speed data transport over a single copper pair linking Branch Offices, Home Offices & Individual Subscribers to their Network Service Providers, including Internet Service Providers.

Flexibility and Scalability
- The SMC Wireless ADSL barricade is scaleable as the network grows. It brings together the best combination of ADSL technology and the flexibility of Ethernet & Wireless Lan Networks. This flexibility provides maximum performance allowing multiple computers to share local resources, access the Internet simultaneously & keeps you „always connected!“

Easy Setup
- The SMC Wireless ADSL Barricade can be configured and managed locally and remotely via a Web-based configuration tool.
- Investments are protected through the support of popular DSL connection models such as PPP over Ethernet (PPPoE) bridging and routing
- The ADSL Barricade can even support PPP over ATM (PPPoA), bridging and routing.

Security
- The SMC Wireless ADSL Barricade also provides extensive firewall for network protection, VPN pass through (IPSec, PPTP & L2TP) capabilities for reduced cost and remote access communications and DHCP support for Plug-and-Play installations.

Features
- Functions as a Bridge and/or Router
- Ethernet and Wireless Access Point provide greater flexibility for simultaneous sharing of the ADSL and local resources
- Firewall security
- Remote management and firmware upgrade

### Specifications

#### Physical Characteristics

**Ports**
- Four 10/100Mbps RJ45 Ports
- One ADSL RJ11
- Two external dipole antennas

**ADSL Feature**
- Supports DMT line modulation
- Supports Annex A Full Rate ADSL: 0 to 8Mbps downstream, up to 1Mbps upstream (G.992.1 & T1.413, Issue 2)
- Supports G.Lite ADSL: up to 1.5Mbps downstream, up to 512Kbps upstream
- Dying GASP support

**ATM Feature**
- RFC1483 Encapsulation (IP, Bridging & encapsulated routing)
- PPP over ATM (LLC & SVC multiplexing)
- Classical IP (RFC1577)
- Traffic shaping (UBR, CBR)
- OAM F4/F5 support
- PPP over Ethernet Client

**Management Feature**
- Firmware upgrade via WEB Based Management
- WEB Based Management (configuration)
- Power Indicators
- Event &History logging
- Network Ping

**Security Feature**
- Password protected configuration access
- User authentication (PAP/CHAP) with PPP
- Firewall NAT NAPT
- VPN pass through (IPSec-ESP Tunnel mode, L2TP, PPTP)

**LAN Feature**
- IEEE 802.1D (self learning transparent Bridging)
- DHCP Server
- DNS Proxy
- 72 Kbps dialing, RIPv1 and RIPv2

**Application**
- Netmeeting, ICQ, Real Player, QuickTime, DialPad, PC Anywhere,
  - Telnet, SNMP, NNTP

**Radio Features**

**Environmental**

SMC7404WBRA complies with the following standards:

- **Temperature**: IEC 68-2-14
  - 0 to 50 degrees C (Standard Operating)
  - -40 to 70 degree C (Non-operation)
- **Humidity**: 10% to 90% (Non condensing)
- **Vibration**: IEC 68-2-6, IEC 68-2-6
- **Shock**: IEC 68-2-29
- **Drop**: IEC 68-2-32
