SMCFS8
EZ Switch 8 port 10/100 Desktop Switch

Product Overview

SMC new EZ Switch™ 8 port 10/100 desktop switch (SMCFS8) is dual-speed Ethernet switches that are easy to install, with the added dimension of dramatically improving network performance by offering speeds up to 200Mbps per port. Power-saving feature automatically powers down ports to make your network environmentally friendly.

Key Features and Benefits

Store-and-forward Technology
Store-and-forward service is the proof of low latency and non-error package delivering, such as CRC and runt. Plug & play and all kinds of network protocols compilation make the installation & network management easy and fast.

The Easy-to-tell LEDs Indicators
The best helper of users to know the working situation of the switch.

Auto MDI/MDI-X on each port to simplify integration into a network
Provides high speed and legacy connections to all nodes on the network, thereby ensuring a migration path for network installations.

Power-saving Feature
SMC Green Saving implements power saving features make your network environmentally by power down ports that have no link.
PHYSICAL PORTS
