OVERVIEW

SMC’s EZ Switch™ 10/100s are dual-speed desktop network switches that are easy to install, with the added dimension of dramatically improving network performance by offering speeds up to 200Mbps per port. All EZ Switches feature Auto MDI/MDI-X on each port, providing added functionality and ease of use. Designed for easy integration with any Home or Small Office network, SMC EZ Switches contain added feature like Store-and-Forward and Flow Control to ensure data delivery and network integrity. Since full bandwidth capability is achieved on each individual port, through the dedicated bandwidth of these switches. Powerful enough to run your network’s backbone, yet so easy they can be used on your desktop, the EZ Switch™ 10/100 brings the power of switching to you.
