GIGABIT SWITCH
5 / 8 Gigabit Ports, Auto MDI/MDI-X

FEATURES
• Complies with IEEE 802.3 Ethernet, IEEE 802.3u Fast Ethernet, and IEEE 802.3ab Gigabit Ethernet Standards
• Provides Store-and-Forward architecture and full wire speed forwarding and filtering rates
• All UTP Ports support Auto-MDI/MDI-X function
• All UTP Ports support full/half duplex modes and auto-negotiation
• Supports flow control: back pressure for half-duplex mode, IEEE 802.3x for full duplex mode
• Extensive front-panel diagnostic LEDs
• External power supply
• Compact size
• Warranty 5 years

SPECIFICATIONS
• Gigabit Port: RJ45 x 5 (SW5500S), RJ45 x 8 (SW5800S)
• MAC address: 8k
• Buffer Memory: 256 Kb
• Dimensions: 30 (H) x 187 (W) x 100 (D)mm
• Operating Temperature: 0-45 °C
• Operating Humidity: 10-95 % (Noncondensing)
• Certification: FCC Class B, CE Mark, C-Tick

MODEL CODE TYPE
SW5500S 5-Port Gigabit Switch
SW5800S 8-Port Gigabit Switch
