The LanSeeker™ is a fast, rugged cable tester and tone generator in one unit. It displays cable test results using LED indicators on the main and remote unit. An easy-to-use professional grade tool, the LanSeeker is a must have for residential and commercial cable installers.

When the unit senses a connection between the main and remote unit, the battery-saving auto-on feature initiates test results within 2 seconds. The tester automatically powers off within 5 seconds of the cable being disconnected.

LanSeeker tests for shorts, opens, miswires, reversals, and split pairs and can display connection and fault information on a pair-by-pair basis. It also generates audio tones for use with tone tracers on all pairs.

**Key Features**
- Displays cable test results on main and remote units in less than 2 seconds
- Immediately detects shorts by just plugging in one end of a cable to the tester
- Identifies shorts, opens, miswires, reversed and split pairs
- No on/off switch, automatically starts test when a connection is sensed between main and remote unit
- Debug mode diagnoses and displays faults one pair at a time
- Includes tone generator
- Self-stored remote

Specifications

Battery Life
Times are for the full capacity of the battery used continuously in one of the following modes (typical, 9V alkaline, included):

- Standby mode: 2.5 hrs
- Cable testing mode: 20 hrs
- Tone mode: 170 hrs

Cable Types
- Shielded or unshielded, CAT3, CAT4, CAT5, CAT5e, and CAT6
- Minimum cable length for testing split pairs: 1 m (3 ft)
- Maximum cable length for testing: 305 m (1,000 ft)
- Coax cable: 100 Ω maximum DC resistance, center conductor plus shield

Environmental
Temperature:
- Operating: 0 to 50°C (32 to 122°F)
- Storage: -20 to 70°C (-4 to 158°F)

Humidity:
- 10 to 90%, non-condensing

Physical
- Length: 14.5 cm (5.70”)
- Width: 7.2 cm (2.85”)
- Height: 3.0 cm (1.20”)
- Weight: 162 gm (5.7 oz., with battery)

Safety
- CE – Conformité Européenne

1-Year Limited Warranty (call for details)
